How many people have the Covid-19 Vaccines actually killed?

The Exposé ⁝ 47-59 minutes ⁝ 3/30/2022

Breaking News

Please share this very important article with everyone you know. Also, please help save lives and send this article to hospitals, doctors' surgeries, care homes, schools, newspapers, journalists, etc.

No one knows how many people the vaccines are killing – or how many they will kill.

But although I haven't seen the mainstream media mention most of these deaths, people have already died or been injured after being given the vaccine:

The Exposé is now heavily censored by Google, Facebook, Twitter and PayPal. Let's not lose touch, subscribe today to receive the latest news from The Exposé in your inbox…

By Dr Vernon Coleman

SHOCKING – The latest covid jab deaths and injuries from VAERS (infants, teenagers and young adults are dying after the vaccine)

openvaers.com covid data (it is estimated that only 1% of vaccine adverse events is reported)

Note: The following paragraph has now been added to the UK's Pfizer analysis data print, "*A report of a suspected ADR to the Yellow Card scheme does not necessarily mean that it was caused by the vaccine…*" In my view, this is yet another attempt to draw attention away from the very real problems associated with the vaccines. We note that when patients die 60 days after a positive covid test, they are added to the covid death figures but if someone were to die 60 minutes after a covid vaccine, then it is just a coincidence.

PFIZER (UK data) – Some of the Injuries include: strokes, heart attacks, miscarriages, Bell's Palsy, sepsis, paralysis, psychiatric disorders, blindness, deafness, shingles, alopecia and covid-19. **(Please help save lives and send the link for the Pfizer data analysis print to schools and local newspapers)**

Note: The following paragraph has now been added to the UK's AstraZeneca analysis data print, *"A report of a suspected ADR to the Yellow Card scheme does not necessarily mean that it was caused by the vaccine…"* In my view, this is yet another attempt to draw attention away from the very real problems associated with the vaccines. We note that when patients die 60 days after a positive covid test, they are added to the covid death figures but if someone were to die 60 minutes after a covid vaccine, then it is just a coincidence.

ASTRAZENECA (UK data) – Some of the many injuries include: blindness, strokes, heart attacks, miscarriages, sepsis, paralysis, Bell's Palsy, deafness, shingles, alopecia and covid-19. **(Please help save lives and send the link for the AstraZeneca analysis data print to schools and local newspapers)**

European database of suspected adverse drug reaction reports: Moderna, Pfizer-Biontech, AstraZeneca and Janssen.

- Derek Sloan MP raised concerns on covid-19 vaccine censorship of doctors and scientists (video – bitchute)
- Moderna begins first human trials for flu shot based on new mRNA technology used to make the company's covid-19 vaccine (article – Daily Mail)
- The following is the FDA's draft working list of possible covid vaccine side effects (see page 16 of document). This was published in October 2020 **BEFORE** the jab roll-out began.

Important note:
There have been reports in the press that the AstraZeneca vaccine is causing blood clots. This is true but so do ALL of the experimental vaccines being given allegedly to prevent covid-19. There have been many deaths, with more than 1,000 in the UK alone, and a vast number of adverse events. It is important to remember that these experimental vaccines which are being given to healthy people do not prevent covid-19 or stop it being passed on, and the risk of a young, healthy adult dying of covid-19 is extremely small.

- Mother seriously injured by covid vaccine (Warning disturbing video).

Those are just some of the possible deaths and injuries that have followed vaccination.

I have no doubt that the authorities will claim that these deaths were coincidental.

And let us remember if a patient dies within 28 days of being tested positive for coronavirus (and the test doesn't mean that the patient even has the disease since most tests are false positives) then the death will be listed as a covid-19 death and the patient will be said to have died 'with' covid-19. So by the same token, it is perfectly reasonable to say that if a patient dies or falls ill within 28 days of being vaccinated then the death or illness was related to the covid-19 vaccine.

Will the mainstream media ever start recording these deaths or illnesses? Or are journalists going to continue to promote the official government line – and to deny, distort or suppress the truth?

How many people have to die before the media wakes up?

Deaths Shortly After Covid Jab – Yet Another Coincidence

- A leading health officer has warned Aussies not to jump to conclusions following the deaths of two men after they received the covid jab
- A 46-year-old man died a day after taking the covid vaccine – "No relation with corona vaccine"
- A Northern California man died several hours after the covid vaccine – "My first inclination is that it's probably not related to the vaccine"
- 236 Brits died after covid jabs – but vaccines "didn't play a role"
- Woman dies from brain haemorrhage in Japan days after vaccine – "link uncertain"
- 63-year-old man dies 2 days after covid-19 vaccination – "it's too early to tell whether the jab was related to his death"
- 56-year-old woman dies days after covid vaccine – "no link established so far"
- Virginia woman dies shortly after receiving coronavirus vaccine – "no link has been found"
- 88-year-old dies hours after covid vaccination in second such incident – "in both cases, medical professionals do not believe the deaths were connected to the vaccines"

Athletes and The Covid Vaccine

Was it the covid jab that caused the deaths and injuries of the following sportspeople? It's obviously rare for young superfit athletes suddenly to develop heart problems, especially when many of them would have undergone extensive medical

examinations during their careers.

- Avi Barot, 29, Saurashtra cricketer suffers cardiac arrest, passes away:
- Abou Ali, 22, professional footballer collapses on pitch during game:
- Fabrice NSakala, 31, Besiktas defender collapses on pitch during game:
- Jens De Smet, 27, footballer collapses on field, passes away of heart attack:
- Jente van Genechten, 25, footballer collapses on field due to heart attack:
- Frederic Lartillot, French footballer collapses in changing room, passes away due to heart attack after game:
- Benjamin Taft, 31, German footballer collapses after game, passes away due to heartattack:
- Rune Coghe, 18, Belgian footballer suffers cardiac arrest on pitch:
- Helen Edwards, referee taken off court during World Cup qualifier due to heart issues:
- Dimitri Lienard, 33, FC Strasbourg midfielder collapses during game:
- Sergio Aguero, 33, Barecelona star striker admitted to hospital for cardiac exam after match:
- Emil Palsson, 28, Sognal midfielder collapses due to cardiac arrest during game:
- Antoine Méchin, 31, French triathlete suffers pulmonary embolism following Moderna:
- Luis Ojeda, 20, Argentine football player unexpectedly passes away:
- Greg Luyssen, 22, Belgian pro cyclist ends career due to heart issues:
- Pedro Obiang, 29, ex-West Ham star suffers myocarditis post vaccine:
- Cienna Knowles, 19, equestrian star hospitalized due to blood clots:
- 17-year-old footballer dies collapsing on pitch against Boston United (Dylan Rich)
- Footballer dies at 29 after suffering heart attack during match honouring late brother

Covid-19 Vaccine – Possible Vaccine Side Effects

The pro-vaxxers like to tell you that vaccines are perfectly safe and perfectly effective. Even when they wouldn't be considered safe enough to use as oven cleaner, the fanatics enthuse about them. Young people and those who know little about medicine or science, talk about vaccines with reverence because they've been indoctrinated into believing the pro-vaccine lies.

And the pro-vaxxers are lying, of course.

Vaccines cause a lot of illness and quite a few deaths and they don't always do what they're supposed to do. Governments around the world have paid out many billions of dollars to patients who have been made ill by vaccines – or to the relatives of patients who were killed by a vaccine.

There are, for example, grave doubts about what the covid-19 vaccine actually does. Since the vaccine is a new type of vaccine and is being given before the usual tests and observations have been completed no one knows what will happen to the people who have the stuff injected into an arm.

What side effects will there be? How many will die?

Well, I don't know and nor does anyone else.

What if a woman is pregnant when she has the vaccine or gets pregnant after being given the vaccine? The vaccine isn't supposed to be given to pregnant women but not all pregnancies are planned.

Will the vaccine interfere with essential life-saving drugs? Many elderly patients already take a number of prescribed drugs. Will the vaccine interfere with them? No one knows. The covid-19 vaccine is the biggest experiment in history. And, unlike a proper clinical trial, it is largely unregulated. As with all vaccines most of the problems which develop will never be reported or recognised.

It is estimated that in the U.S., only 1 in 100 vaccine side effects is reported.

The best we have is a working list of possible adverse event outcomes which the FDA has published in the US. (Here is the link to the draft working list)

Since I believe everyone is entitled to know what side effects there could be with a heavily promoted vaccine, I'm going to read you the official list of possible side effects. This is, remember, not my list but a draft list compiled by the FDA – the Food and Drug Administration in the US.

- Guillain-Barre syndrome
- Acute disseminated encephalomyelitis
- Transverse myelitis
- Encephalitis
- Myelitis
- Encephalomyelitis
- Meningoencephalitis
- Meningitis
- Encephalopathy
- Convulsions
- Seizures
- Stroke
- Narcolepsy
- Cataplexy
- Anaphylaxis
- Acute myocardial infarction (heart attack)
- Myocarditis
- Pericarditis
- Autoimmune disease
- Death
- Pregnancy, Birth outcomes
- Other acute demyelinating diseases
- Non anaphylactic allergy reactions
- Thromocytopenia
- Disseminated intravascular coagulation
- Venous thromboembolism
- Arthritis
- Arthralgia
- Joint pain
- Kawasaki disease
- Multisystem inflammatory syndrome in children
- Vaccine enhanced disease

You aren't necessarily going to get all of those or even any of them if you have the vaccine. But those are the possible side effects that the FDA has listed. They're all unpleasant, most of them very serious and you can't get more serious than death.

And if you are mad enough to have the vaccine then you and your doctor should keep a look out for the symptoms of all the diseases on the FDA's list.

Your government won't tell you about these dangers – they don't believe in fully informed consent as far as vaccines are concerned.

Indeed, most governments are now doing everything they can to ensure that all criticisms of vaccines are banned. Depending on where you live it is, or soon will be, illegal even to mention that vaccines might not always work or might make you ill.

Finally, if your government really cared about you they would conduct a very simple, cheap trial.

They would keep a note of all the health problems affecting 20,000 patients who had the vaccine and compare that list with a list of all the health problems affecting 20,000 patients who didn't have the vaccine in the same period. They make the comparisons every 3, 6 and 12 months.

Of course, they'd have to find some honest doctors to oversee the trial because it would be very easy to fiddle.

But it would give some very interesting results so I doubt if they'll be doing it.

Please share this article with everyone you know.

Vernon Coleman's book, *Anyone who tells you vaccines are safe and effective is lying: here's the proof* is available on Amazon as an ebook and a paperback.
